The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `/home/tbeier/src/nifty/include/nifty/graph/detail/node_labels_to_edge_labels_iterator.hxx`. Below it are two white boxes representing source files. The left box is `/home/tbeier/src/nifty/include/nifty/graph/optimization/lifted_multicut/lifted_multicut_ilp.hxx` and the right box is `/home/tbeier/src/nifty/include/nifty/graph/optimization/multicut/multicut_ilp.hxx`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.
